Crushed Gravel Bids

The Town of Northfield is accepting bids for up to 5,000 cubic yards of 1 ¼" plant mix, and up to 3,000 yards of ¾" plant mix. The material shall meet or exceed State of Vermont/AASHTO specifications. The Town is seeking prices for both a delivered price and at the pit. Please note that the town may consider splitting bids between two different vendors.

Specifications for Sub-base Crushed Gravel

The material shall be produced from natural gravels or crushed rock and shall reasonably free from silt, loam, clay, and organic matter. The material shall be obtained from approved sources and meet or exceed the following standards:

1. <u>Grading</u>	Sieve Designation	% By Weight
Coarse:	1000 (4 inch)	95-100
	4.75 (No. 4)	25-50
	150 pm (No. 100)	12-10
	75 pm (No. 200)	0-6
Fine:	50 mm (2 inch)	100
	37.5 mm (1 ½ inch)	90-100
	150 pm (No. 100)	0-12
	75 pm	0-6

2. Percent of Water: The percent of wear of the crushed gravel shall be not more than 40 percent when tested in accordance with AASHTO.

3. Fractured Faces: At least 50 percent, by mass, of the material coarser than 4.75 (No. 4) sieves shall be at least one fractured face.

The material will be sampled and tested by the Highway Foreman (the Town reserves the right to test the product at anytime). Measurements shall be by truck measure.

The supplier will coordinate delivery of the material with the Road Foreman.

The Town reserves the right to purchase any product from other than the accepted bidder.

Additional information regarding the process may be obtained by the contacting the Town Manager at 485-6121. Bids must be received in writing no later than 1 PM on July 23, 2018. The bids shall be on the attached bid sheet and include a certificate of insurance. The Town reserves the right to accept or reject any and all bids.

Winter Sand Bids

The Town of Northfield is accepting bids for up to 4,000 cubic yards of winter sand. The material shall meet or exceed State of Vermont/AASHTO specifications. The Town is seeking prices for both a delivered price and at the pit.

Specifications for Winter Sand

1. The winter sand shall be clean, screened, uniformly graded from coarse to fine, and free from silt, loam, clay and organic matter. The sand shall be obtained from approved sources and meet or exceed the following requirements, including PH test:

Sieve Designation	% By Weight Passing Square Mess Sieves
Up to 1/2"	100
No. 4	90-100
No. 100	2-10

2. The material will be sampled and tested by the Highway Foreman (the Town reserves the right to test the product at anytime). Measurements shall be by truck measure.
3. The supplier will coordinate delivery of the material with the Road Foreman, and the product shall be delivered to the Town Highway Garage by October 15, 2017.
4. The Town reserves the right to purchase any product from other than the accepted bidder.

Additional information regarding the process may be obtained by the contacting the Town Manager at 485-6121. Bids must be received in writing no later than 1:00 PM on July 23, 2018. The bids shall be on the attached bid sheet and include a certificate of insurance. The Town reserves the right to accept or reject any and all bids.
