Pavilion Bid	<p>Do we want to accept the bid from John Duncan for the building of the pavilion? Bruce Wright had questions from the prior meeting; 1.) Can we bring the cement above ground and put the posts into a metal cap that is inserted into the cement? 2.) He wants the cost difference of the 6'x6' post being cedar rather than pressure treated yellow pine. If we don't go the cedar posts can we have the pressure treated posts wrapped in cedar? 3.) Bruce Wright wants to know the cost difference of putting boards on the inside of the metal roof rather than the plywood. 4.) Can we have the disposal cost removed if we dispose of materials ourselves? Sally Davidson told Bruce Wright she would call John Duncan the next day and get the answers to these questions for him. The next day when Sally Davidson called John Duncan with the questions John told Sally that Bruce Wright had already called him and John answered all the questions for Bruce. John Duncan then proceeded to tell Sally what he and Bruce Wright had discussed. So when we met tonight Sally Davidson told everyone that John Duncan had answered all the questions that Bruce Wright had asked. When the Rest of the Recreation Committee was brought up to speed on the information Bruce Wright had stated he had more questions he wanted answers to; 1.) What will it cost to have all the face boards cedar instead of pressure treated yellow pine? 2.) Can we have the front boards solid or are they open like this? 3.) Do the support corners need to be decorative like they show? 4.) Do we need that decorative wood on the bottom of the posts like shown? 5.) Bruce Wright has requested a drawing of the pavilion from John Duncan. Lynn Doney told the committee if they didn't stop jerking around we would lose our spot and the pavilion would not get built until after the pool closes for the year. Josh Sanders still thinks it is too much money for a structure such as this one. After a lot of time of going in circles Sally Davidson requested that each of the committee members brings back an estimate for exactly what is in this estimate so we can compare apples to apples and we can move forward from there.</p>	<p>Sally Davidson is calling John Duncan and getting the questions answered for Bruce Wright. Everyone is to bring an estimate and a drawing of the structure to our May 1st meeting.</p>	May 1, 2018	NA
