Topic Discussed	Summary of Topic Discussed	Decision/Action to be taken	Deadline/Person Responsible	Action Item Completed
Public Participation	<p>Jennifer Pixley wanted to discuss safety concerns for the new playground with the sand pit being so open. There are too many concrete block areas for kids to climb on and fall and get hurt. The possibility of having a dirt pile bury a kid is too great. There are many levels and many drop offs for kids to get hurt from climbing, jumping and/or falling. Her solution is to fence off the pit so kids cannot go in there to play and get injured.</p> <p>Frank Hall feels the softball field is very dangerous for the kids to play on. There are too many stones in the baselines and field and when the kids slide into base they are getting hurt. With some hits of the ball the stones are bouncing up and hitting the kids as well. The fields are like playing on gravel and it's unacceptable. Lynn asked why the girls field is dirt and the boys field is grass. Frank did not know the answer to this.</p> <p>Scott Culver was not able to make this meeting.</p>	<p>No action taken. Lynn will discuss having a fence installed with Manger Schulz.</p> <p>Lynn will check with Montpelier to see where they get their clay and how much it costs. Marc suggested we do the softball field one year and the little league field the opposite year in order to keep them up and only having to pay for one field a year. It was the consensus the school should pay for half and the town should pay for half of the upkeep of the fields.</p> <p>N.A.</p>	<p>After the July 4th holiday.</p> <p>After the July 4th Holiday.</p> <p>N.A.</p>	<p>No</p> <p>No</p> <p>N.A.</p>
