

Northfield Energy Committee

December 17, 2019

Present: NEC Members - Jane Pekol, Denise MacMartin, Gail Hall, Sarah Wolfe, Ted Fisher

The meeting was called to order at 6:30 p.m. by Chair Jane Pekol.

Minutes from the December 3, 2019 meeting were approved

Survey: Sarah is still working on the data analysis. When finished she will share via Facebook and FPF, and possibly in other formats including a press release.

Commuter Bus: Update from Ted on GMT appearance at the recent select board meeting. In FY19 there was a 9% increase in ridership, but the ridership recently has dropped off (NEC speculates that this is in part due to some van-pooling). The bus will be a ballot item in March. There was discussion among members on how to promote the bus prior to the vote.

Kiosk Update: Gail gave an update on the kiosk plans. The select board has given conditional approval for the kiosk, dependent on site line findings and engineering study.

Transportation Week: We are still on track for this event that will kick off on March 1.

VECAN Conference: Denise gave a brief overview of the conference.

Our next meeting will be January 7, 2020.

The meeting was adjourned at 7:30.

Respectfully submitted,
Denise MacMartin
NEC Secretary
